

Luke Payne

Full Stack Developer in Training

lukepayne268@gmail.com • 07359 900 897 • Woodhurst, Cambridgeshire • Open to relocation

PERSONAL STATEMENT

I spent just over a decade at Anglian Water, working my way up from scheduling new connections to leading a team of 15 delivering smart leakage programmes across the region. A lot of that work sat at the intersection of operations and technology — managing UAT for data infrastructure projects, overseeing SAP implementations, and helping deliver an industry-first smart meter customer portal. Logic, reasoning and problem solving are what I gravitate towards. I am now studying Full Stack Web Development at Code Institute and finding that a lot of what I learned managing complex projects and leading teams translates surprisingly well to writing code.

KEY SKILLS

- HTML5 & CSS3
- Bootstrap 5
- Git & GitHub
- Project Management
- Stakeholder Engagement
- Team Leadership
- UAT & System Testing
- Data Analysis
- Customer Experience

TECHNICAL SKILLS

Current

HTML5 • CSS3 • Bootstrap 5 • JavaScript • Git • GitHub • VS Code • Responsive Web Design UX Design • Agile / MoSCoW Prioritisation

In Progress

Python • Django • REST APIs • SQL • PostgreSQL Heroku • Jest (Testing)

EMPLOYMENT HISTORY

Self Employed Nov 2024 — Feb 2026

Window Cleaning Business Owner

- Managed and grew a self-employed window cleaning round serving residential and commercial customers across Cambridgeshire
- Responsible for scheduling, customer communications, invoicing, and day to day business operations
- Maintained strong customer retention through reliability and high service standards while studying towards a career transition into software development

Smart Leakage Delivery Manager Aug 2022 — Nov 2024

Anglian Water

- Led a team of 15 call agents responsible for assisting customers with finding and fixing leaks, consistently achieving regulatory and financial KPIs
- Drew on Level 5 ILM qualification to build a well-motivated, cohesive team with a shared vision and strong performance culture
- Delivered continuous improvement through effective delegation, motivation and empowerment techniques

Smart Water Customer Experience Manager May 2019 — Aug 2022

Anglian Water

- Focused on maximising the benefits of Anglian Water's smart meter programme using technology and behavioural change techniques
- Managed the technological implementation of water efficiency visits in SAP — scope, scripting, testing, go-live and ELS
- Designed and delivered a complex UAT for Anglian Water's Smart Meter Data Infrastructure programme

- Collaborated with community partnership manager to trial household water efficiency devices in low-income areas

Customer Manager *May 2016 — May 2019*

Kier Group — Anglian Water

- Led a team of nine customer service agents within a busy operational management centre
- Managed the rollout of an industry-first smart meter customer portal while simultaneously leading the team through a complex, time-sensitive project
- Achieved more than 50% reduction in regulatory quantitative complaint scores for the department
- Led one of the most engaged and enabled teams within Anglian Water per the 2018/19 employee engagement survey of circa 4,000 employees

Developer Services Scheduler *2015 — 2016*

Anglian Water

- Recovered LOS for new connections from a low of 60% to the KPI target of 95%, peaking at 99.26%
- Assigned responsibility for overseeing and auditing all connection schedules, gaining early management experience

EDUCATION & QUALIFICATIONS

Level 5 Full Stack Web Development *2024 — Present*

Code Institute

Currently studying — covering HTML5, CSS3, JavaScript, Python, Django, and database technologies.

Level 5 Certificate in Leadership and Management (ILM) *Completed*

Institute of Leadership and Management

Access to Higher Education Diploma *2012 — 2013*

Huntingdon Regional College

All units achieved at Distinction grade. Referred to study Philosophy at Cambridge University on the strength of the work.
